Summary

I am the algorithm head at [ZMO.AI](#) and lead the R&D team for AIGC. I obtained my PhD degree at [VISICS](#) group of KU Leuven supervised by [Prof. Luc Van Gool](#). Before this, I obtained my Master's and Bachelor's degree from Peking University and South China University of Technology. My research goal is to develop a creative self-learning AI system. Currently, I am working on image/video understanding and synthesis.
